© BETTER STEEL BUILDINGS ©

Our patented systems support buildings of virtually any size or shape. We manage the process from start to finish with our in-house design, engineering, manufacturing and construction teams. For that reason we can guarantee a shorter timeline, while maintaining a cost-effective price for your project.

Potato and Onion Storage, Waharoa

The bird and vermin-resistant qualities and the ability to span 50m with no apex or knee braces, meant the Tapered Box Beam was the ideal solution for this structure.

Dimensions: 94.6m L, 50m W, 7.6m H, 4731m². Tapered Box Beam structure.

Ali Arc Logistics

Dimensions: 84m L, 50m W, 7.6m H, 4200m². Tapered Box Beam structure.

"From design to completion the process was seamless. The way the beams and supports were constructed was impressive."
- Robert Bartley, Developer

Blackdog Steelworks Ltd

Dimensions: 67.5m L, 37m W, 8m H, 2498m². Tapered Box Beam structure.

"The Coresteel crew was excellent to work with and produced a quality building that looks and functions as we wanted it to."
- Kevin Ogle, Managing Director

Bluefix Marine

This purpose-built travel-lift workshop can accommodate boats up to 10.5m high and 26m long. The building also features 220m² of office space and storage.

Dimensions: 29m L, 27m W, 11.4m H, 1003m²

The complete Coresteel package

- Cost-effective systems without compromising structural integrity
- Buildings not confined to set sizing - fully bespoke
- No obtrusive knee or apex braces
- Fully-bolted primary and secondary sections i.e. not TEK screwed
- Bird-resistant purlins and vermin-resistant girts
- Coresteel is your designer, engineer, manufacturer and builder all in one, considerably reducing costs
- 50 year design life/durability statement
- Coresteel is 100% New Zealand owned and operated
- Two unique building systems - patented Bracketless Portal System and Tapered Box Beam.
