

SHEDS

© BETTER STEEL BUILDINGS ©

Our patented systems support buildings of virtually any size or shape. We manage the process from start to finish with our in-house design, engineering, manufacturing and construction teams. For that reason we can guarantee a shorter timeline, while maintaining a cost-effective price for your project.

Deaker Livable Garage

"During several projects with Coresteel, I've always been impressed with the quality and value. They always deliver. Our livable garage is a guaranteed winner." - Mark Deaker, Owner

Dimensions: 12m L, 9m W, 2.9m H, 108m².

Frost Clearspan American Barn

Dimensions: 12m L, 15m W, 3.9m H, 180m².

The Clearspan American Barn is a popular choice, offering traditional styling with a huge amount of storage, due to the raised central gable and lack of supporting beams.

Thode Horse Arena Canopy

Dimensions: 28.2m L, 25m W, 4.5m H, 705m².

The canopy provides a large, open, undercover area for equestrian events, with no obtrusive support poles. The structure is fully bird-resistant.

Johnstone Stables

Features include a 12x9m main building which houses three stables with split doors, a tack room and wash down area. Attached is a 6x4m garage and additional open storage area.

Dimensions: 20m L, 9m W, 3.6m H, 180m².

The complete Coresteel package

- Cost-effective systems without compromising structural integrity
- Buildings not confined to set sizing - fully bespoke
- No obtrusive knee or apex braces
- Fully-bolted primary and secondary sections i.e. not TEK screwed
- Bird-resistant purlins and vermin-resistant girts
- Coresteel is your designer, engineer, manufacturer and builder all in one, considerably reducing costs
- 50 year design life/durability statement
- Coresteel is 100% New Zealand owned and operated
- The patented Bracketless Portal System is exclusive to Coresteel Buildings.

Peake Construction and Roofing Ltd

Dimensions: 20m L, 14m W, 4m H, 280m².

"Coresteel was great to work with and we're very happy with our workshop. We've found the building works for us exactly as we had planned." - David Peake, Owner
